

SEAR Periodic Report Fifth Sprint

Goals for This Sprint:

The goals for this sprint were to finish section 3 as well as make further progress into section 4 and section 5.

What we completed:

We completed section 3 and made progress on section 5 so we should only need one more iteration for each section.

Next Iteration goals:

The goals for this next sprint are to and finish section 5 and then section 4 in that order of priority.

We should be within at least one iteration of having these sections completed.

Reflection on progress:

We have been able to finalize several sections allowing us to take our time finishing the last two dependent sections.
