

## SEAR Periodic Report Sixth Sprint

### Goals for This Sprint:

Finish section 5 and section 4 in that particular order and then move onto section 6 if we had time.

### What we completed:

This iteration we were able to nearly complete section 5 and some work left in section 4.

### Next Iteration goals:

Finish section 4 and then work on section 6 and make sure we can set reasonable standards for our non-functional requirements.

### Reflection on progress:

We need to begin to review and format the document for consistency, but otherwise we are nearly finished.
